

**Date:** September 18, 2013  
**To:** SWAN Member Libraries  
**From:** Aaron Skog, Executive Director  
**Re:** Network Changes Memo #4: New SWAN Website URLs

---

The following information should be provided to your IT staff and library staff responsible for your library website and computers. ***Please complete the following transition by Friday, October 18th, 2013, and submit a work survey upon completion. The work survey can be found at [SWAN Work Survey](#)***

If you should encounter problems after the transition, or if you have any questions/comments about the transition, please submit a ticket to the **SWANTech** queue in the [SWAN ticket system](#) or contact the SWAN Help Desk directly at **630-734-5153**. Thank you for your cooperation and patience during this transition process.

Source	Current/OLD MLS Domain URL	New SWAN Domain URL
WebPAC	swan.mls.lib.il.us	catalog.swanlibraries.net
Encore Discovery	swanencore.mls.lib.il.us	www.swanlibraries.net
EZ Proxy	mlslib.mls.lib.il.us	proxy.swanlibraries.net ( <b>provided for reference until 12/31</b> )
SWAN Ticket System/OTRS	Did not exist/not applicable	help.swanlibraries.net
SWAN Support Site	www.mls.lib.il.us	support.swanlibraries.net

### Steps to complete the SWAN Website URL Transition...

1. Replace any web links referencing the old MLS domain by **October 18<sup>th</sup>**. A redirection page from the old URLs will be instated shortly after this date, eventually leading to the complete retirement of the old URLs by **October 30<sup>th</sup>**. *We recommend notifying local patrons of this transition as well so that they can update any links they might have on their home computers.*

The SWAN website links needing replacement would likely be in use in the following locations...

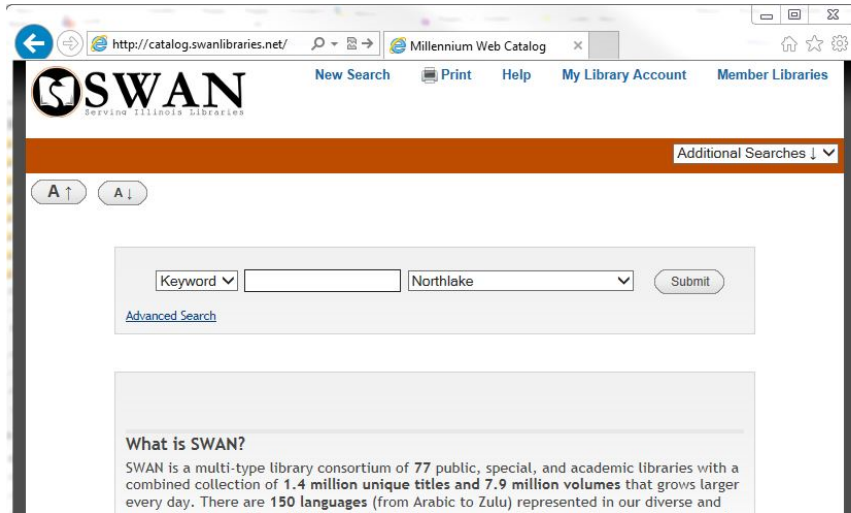

- a. **Public-facing lab and catalog computers (often referred to as OPAC computers)** pointing to the SWAN WebPAC or Encore websites
  - b. **Staff computers** at service desks or the staff areas
  - c. **Library website links** pointing to the SWAN catalog or staff intranet webpages
  - d. **Search boxes** embedded in library webpages
2. Eliminate all references to <http://204.120.131.125/> by internal IP address. This link will no longer be valid after we move all of our servers to a new IP address. It should be replaced with <http://catalog.swanlibraries.net>
  3. Links to SWAN's EZ Proxy should also be eliminated. Please refer to the 2012 document which outlines how libraries should set up links. See page 2 of the PDF "[RAILS Database Group Purchase: SWAN Library Database Links, July 2012 - June 2013 Revision 1.0](#)"

## WebPAC Scoping & Encore Bubbling Up

The goal is to have all library network traffic for SWAN's WebPAC or Encore Discovery to reach the SWAN network through our external IP addresses. **No WebPAC or Encore traffic should be directed over the SWAN VPN.** This change will affect your library in the following manner:

1. **WebPAC Scoping:** Automatically adjusts your SWAN Catalog search so that your location is automatically selected when patrons use a computer at your location. In the following example, Northlake is used for reference. If Scoping is not functioning at your location, please submit a ticket to the **WebPAC** queue of the [SWAN ticket system](#)

2. **Encore Bubbling Up:** Adjusts your patron's search results to display your local inventory/item status first, and other libraries in alphabetical order. If Bubbling is not functioning at your location, please submit a ticket to the **Encore** queue of the [SWAN ticket system](#)

**The Hardy Boys undercover brothers #16 Shhhhhhh!** / Scott Lobdell, writer ; Paulo Henrique Marcondes, artist ; [Mark Lerer, letterer ; Laurie E. Smith, colorist]  
Lobdell, Scott.
